

ADVANI @ CAMPUS

Today's tough times call for a strong and experienced leader to make the right — and at times tough — decisions. In the present landscape of leadership, there is no one who can match the BJP/NDA's prime ministerial candidate, Shri Lal Krishna Advani, in conviction, integrity and record of service to the nation. He has the experience of 80 and enthusiasm of 20.

As India readies to elect the 15th Lok Sabha, voters — especially young and first-time voters numbering over 10 crore — must know the issues at stake. The worst economic crisis in recent times. Rampant job losses. Rising costs and narrowing opportunities in education. Price rise drilling holes in family budgets. Farmer suicides. Widening rich-poor divide. Stench of corruption in high places. Democratic institutions devalued...and Terrorism resulting in overall insecurity
